

Microsoft Juniors v4.5

Founded in 2002, we are a group of young people recruited through a selection process which is called auditions / casting. While majority of the members belong to Information Technology and Computer Sciences as their field of study, there are some members that are passionate about technology and belong to the humanities or the sciences as their field of study

The MSJuniors is a group of students that are used for various events of Microsoft Philippines. Privilege? Definitely, want to be part of us? We are now looking for qualified individuals in Cebu. Think you got what it takes? Read below.

Microsoft Southern Philippines is looking for students that are interested in joining the MS JUNIORS in Cebu who are:

1. **Open to all students, male or female, currently enrolled in College(1st year - 3rd year)** Course is irrelevant (you could be a management or biology major, for as long as you fulfill the second requirement).
2. **Must be passionate and knowledgeable about Technology.** (Don't think you aren't trained enough or have the right skills, we will determine that later... you just must be passionate and have a certain level of umph for technology)
3. **Must be able to present and discuss technology** to novices or intermediate end-users from scenarios ranging from 1:1 to 1:many audiences.
4. This sounds corny but is essential... **must have a pleasing personality.** Must be able to work in a team but can work as an individual.

To be part of the Microsoft Juniors program. For those interested you may email the following information to casting@msjuniors.net:

Name:

Age:

School / Yr. Level:

Contact Numbers / Cell:

Email Address:

For the applicants, there **will be a mock presentation** that will happen on

1) Interview

2) Mock session with a non-technical person

3) Presentation (we will send you a 5 slide Powerpoint presentation beforehand so you can prepare).

(topics for 2 & 3 will be simple and will focus only on Windows and or Office... this will be pre-determined, but very basic... you will not need Internet connectivity to do #2 or #3).

Mock presentation will be on February 10, 2007 (Saturday), in the Microsoft Southern Philippines Office, 7th Floor Skyrise Building, Asia Town IT Park, Apas Cebu City.

Again, if you think you have what it takes, take the opportunity and be a part of a family.
